Minutes

- University of Florida Foundation update – Ms. Erenguc stated that the UFF special review has been completed and remains confidential due to an ongoing criminal investigation. She recapped the investigation procedures and stated that 1) fraudulent payments were directed to personal accounts by altering checks noting that her office reviewed almost 40,000 checks written in the last three years, 2) payments to financial institutions were diverted to personal accounts, and 3) Foundation purchase orders and credit cards were used for personal purchases. The amount of alleged loss due to fraudulent activity totals nearly $1 million by one individual who is believed to have acted alone. Foundation Vice President Paul Robell discussed the $1 million insurance policy against theft held by the Foundation. Trustee Warrington said the banking institutions should be contacted regarding processing large or unusual deposits. Trustee Merkel noted that basic internal control procedures were not in place and stated that the incident raises concerns about PeopleSoft procedures for issuing checks. She requested confirmation of assurance that internal controls are in place to prevent recurrence. Guidelines for DSO audit committees clarifying their oversight roles are being developed. Recommendation for committees to have an audit charter will be included.

- Ethics and Internal Control Policies – An Ethics Policy is being developed in conjunction with the General Counsel’s office. A draft of the Internal Control Policy was distributed and will be issued by July 1, 2004.
